

2019 ACLS COURSES

AMR— San Mateo, Burlingame, CA

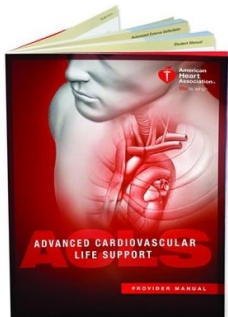

1510 Rollins Road, Burlingame, CA 94010

Classes are designed for EMS professionals and are open to the public. Register Online at: www.NCTI.edu

This update course will provide the most up to-the-date information on acute cardiac care and Advanced Cardiac Life Support in accordance with the standards of the American Heart Association. Information on advanced airway management, intubation, dysrhythmia, interpretation, emergency pharmacology, electrical therapy and myocardial infarctions will be presented didactically and in skill practice stations.

Students must have an excellent working knowledge of the ACLS course content, current CPR and ACLS Provider cards. Students also need to have basic training in EKG Interpretation and Emergency Pharmacology prior to attending this course as it covers these topics in review form only. Students must be advanced life support providers.

*Students are also required to take the pre-test prior to the first day of class and bring completion confirmation to class. A link to access the pre-test will be included in your confirmation email.

Textbook is mandatory for course attendance:
